

Sira-Form™ Supreme ovenable dividers, boards and papers

Ovenable dividers, boards and papers - more innovative products from Sirane. A fantastic way to enhance your food presentation. Direct from the chilled display to the oven. They divide the tray into numerous sections. Cradling the food in the retail pack whilst in transit prevents food from moving around, thus enhancing product presentation.

Ovenable dividers and boards are specifically designed for your foil or C-PET tray. Single or double sided, with or without absorbency. Size of compartments to suit your application. Many sizes available or complete bespoke service to suit.

- > Size and design to fit your application - you choose
- > Total segregation of food products and sauces
- > Attractive product presentation
- > Freezable and ovenable
- > Fully approved for direct food contact
2002/72/EC
- > Non ovenable dividers also available
